

O'HARA DIFFERS WITH ACCUSER ON ONE POINT

Maude Robinson and Lieutenant Governor Agree on Essential Matters

ACCOUNTS FOR ACTIONS

Accused Gives Account of His Whereabouts January 17 and 18th and Has Witnesses

SULLIVAN'S NEW STATEMENT

CHICAGO, MAY 10.—Maude Robinson, accuser, and Lieut. Gov. Barratt O'Hara, respondent, in accusations of immorality presented in the Illinois senate against the latter today offered before the senate investigation committee testimony which differed in one detail but agreed in essential matters.

Both denied improper intimacy and differed in the single statement made by Miss Robinson that on the night of January 17, O'Hara visited the suites at the Hotel Sherman, occupied by Miss Robinson and another woman.

According to Miss Robinson, O'Hara called at the apartment after he, Thomas Vredenburg, Harry Gibbons, a Chicago court bailiff, Miss Robinson and another woman, had visited the cafe of the Hotel Sherman and the Lamb's cafe, across the street.

O'Hara stated, and in his testimony he was supported by Frank J. Jacobson, an advertising man, that after leaving the Lamb's cafe, the second one visited that evening, he met Jacobson at the Press club, took a midnight lunch with the latter at a short-order restaurant and then went home, accompanied by Jacobson.

In this connection he offered to produce as witnesses his mother and his father.

Also Accounts for January 18.

He accounted in similar detail for his public appearance on the next day, January 18, at a luncheon, a banquet and at the theatre. He named numerous witnesses who would confirm his testimony on these points. On the remainder of the 18th, he played poker with members of the Press club, naming a number of them, until 6 o'clock Sunday morning. In support of this story he offered to produce checks against him at the Press club.

This was the morning of 19th. Most of the day he spent at his office and the home of his parents. He attended the Olympic theatre late in the performance and sat in a box alone. His appearance at the theatre was explained by him as follows:

The manager of the theatre, a friend, had given him a box to attend the first performance of a play on the night in evidence. Not desiring to sit through a performance he offered the box to Vredenburg, who accepted it. It was Vredenburg who showed O'Hara great courtesy in securing a home at Springfield and who introduced him to Miss Robinson on a train coming from Springfield to Chicago on Jan. 17. O'Hara dropped into the play late because the manager of the theatre desired to obtain his opinion of the production. Leaving the theatre, O'Hara met Vredenburg and the two women, and, being urged, "took a sandwich with them at a cafe. He then returned to his home."

His testimony O'Hara said that he could not remember the name of the woman who was with Miss Robinson. He stated, however, that Vredenburg had told him that he had registered the women as having husbands at the request of the women, who had a parlor in common. Vredenburg explained that this was because the women desired to receive their friends, including several men, without having their guests annoyed by possible questioning on the part of the hotel management. The lieutenant governor also stated that at no time during the period under investigation did he take a drink of anything intoxicating.

In interviews at Madison, Wis., with Mrs. Mabel Davidson Inbusch, daughter of former Governor James O. Davidson of Wisconsin, whose name had been brought into the story as the companion of Miss Robinson, Mrs. Inbusch denied that she had ever met Miss Robinson in Chicago.

Deputy Sullivan's Statement.

Springfield, Ill., May 10.—After reading an account of Maude Robinson's testimony in the Barratt O'Hara matter before the senate committee, Deputy Sheriff Richard Sullivan said the woman told the truth and added that it was Sam Davis' intention to present the woman's affidavit, which he had secured, when called to testify before the commission. Sullivan also said he tipped off the fact that Davis had the affidavit to William L. O'Connell, treasurer of Cook county, previous to one of the Springfield sessions of the vice commission so he could give the information to O'Hara. A few days later, Sullivan said, O'Connell told him he had informed O'Hara about the affidavit.

"He said," continued Sullivan, "O'Hara admitted he had a place in

DONERAIL WINS KENTUCKY DERBY

**BREAKS CHURCHILL DOWNS
DERBY COURSE RECORD**

Eight Starters Give One of the Best Exhibitions of a Real Horse Race Ever Presented at a Kentucky Derby Contest--Donerail's Time 2:04 4-5

LOUISVILLE, KY., MAY 10.—A champion three year old of America leaped into prominence today and the Churchill Downs derby course was broken before the largest crowd that ever witnessed a derby here, when Donerail, a Kentucky colt, nipped Ten Point at the wire and won the thirty-ninth renewal of the Kentucky derby. The winner never showed startling ability as a two year, paid \$184.90 for every \$2 in the pari-mutuel betting. The time was 2:04 4-5. Eight starters gave what spectators declared to be one of the greatest exhibitions of a real horse race ever presented at a Kentucky derby contest. When the horses passed the grandstand after running a quarter mile of the mile and a quarter course Ten Point had been hustled into a short lead with the others bunched closely behind him. At the turn Jockey Buxton had allowed his mount to take a commanding lead and at the mile Ten Point was three lengths ahead with others fighting hard and with about even chances. As they rounded the last turn Jockey Goos began to force Donerail ahead of the crowd he had been running with and started the leader. Whether a more determined ride by Jockey Buxton on Ten Point would have stalled the fast coming Donerail was questioned but at rate the Kentucky colt steadily wore down the last leader in the stretch and just got up in the last three strides to win by a length. Gowell, a filley sired by Orth Wells, was third, and Foundation, second choice in the betting and pride of Kentuckians, finished out of the money.

FILES SUIT FOR SHARE OF THE \$14,000,000 ZIEGLER ESTATE

Miss Florence L. Brandt Asks For One-Half the Residue Together With One-Half the Accumulated Income.

New York, May 10.—Miss Florence L. Brandt, a kindergarten teacher of Davenport, Ia., filed suit in supreme court here today for a share of the \$14,000,000 estate of William Ziegler, baking powder manufacturer. Miss Ziegler was a sister of William Ziegler who was adopted by the deceased and inherited the bulk of the estate. She asks for one half the residue, together with one-half the income that has accumulated, the latter amounting to \$4,000,000.

Miss Brandt, who is 28 years old sets forth that when she and her brother were children they were adopted by Ziegler, but that six years later in 1902, she left the Ziegler home, signing papers vacating her adoption. She cites that she was under age when she signed the papers and her own mother was not a party to the proceeding. She delayed bringing action until her brother reached his majority, the complainant declares so that he would be legally competent to consider a claim against the estate.

CANCER VICTIMS BENEFITED BY NEWLY DISCOVERED SERUM

Within 48 Hours of Inoculation Patients Feel Benefit of Serum.

Boston, May 10.—A marked improvement has been noted in the condition of fifty cancer victims at the Massachusetts homeopathic hospital who have been inoculated with the rabbit serum recently discovered by Dr. Howard W. Nowell of Boston university. That is the substance of an announcement made tonight by a committee of five physicians connected with the Evans memorial department of clinical research at the hospital. Within 48 to 96 hours after the first inoculation, the report says all the patients were made so comfortable that opiates have been dispensed with.

While some of the patients have shown a gain in weight, Dr. Nowell said that sufficient time has not elapsed to draw conclusions.

CLARK ADDRESSES TEACHERS

Baltimore, Md., May 10.—Speaker Champ Clark addressed a meeting here today of the Maryland state federation of teachers. He was introduced by Mayor Preston who said that as a candidate for the presidential nomination he had his friends from the Atlantic to the Pacific and three years hence he will have them again.

The speaker's response was that he did not forget his friends or his enemies either.

Mr. Clark said that the school system of this country is not going to be good until the teachers are paid enough to make it a life profession.

The Chicago party but denied there had been anything improper regarding his part in it.

Sullivan denied he ever said he "had the goods on O'Hara."

ENDORSES PROPOSED TARIFF AMENDMENT

**WOULD AUTHORIZE SECRETARY TO
PROCLAIM VALUATIONS ON IMPORTS**

This It Is Claimed Would Prevent Undervaluation and Avoid Confusion Resulting From Fluctuation of Foreign Market Values.

WASHINGTON, MAY 10.—Chairman Simmons of the finance committee sees merit in an amendment to the tariff bill suggested today by Assistant Attorney General Denison and Assistant Secretary of the Treasury Curtis to authorize the secretary of the treasury to proclaim valuations on imports. It is claimed that would prevent undervaluations and to avoid confusion resulting from fluctuating foreign market values and ad valorem rates. After the department officials had explained their proposed amendment to the senator to day he declared it a worthy point and that it would receive the utmost consideration by the committee. The plan to him seemed to be of great value to avoid undervaluation.

"The bill as it is," chairman Simmons said, "has many safeguards against undervaluations, but the principal to empower the secretary treasury is the most important."

"The plan will be taken up by the committee next week."

Chairman Underwood of the ways and means committee was also consulted by Mr. Denison and Mr. Curtis.

Question of Public Hearings.

Chief interest in the tariff now lies in the contest of the question of public hearings predicated by Senator Penrose. There is a possibility the Republicans may rally enough Democratic support to their plan to defeat the majority part in its tariff program at this juncture. Such a development undoubtedly would result in slowing up consideration of the measure in the senate. That is the Democratic chief objection to public hearings. They feel that hearings would not result in material alterations of the bill and that the country is entitled to the new law as soon as it possibly can be made ready for the statute books.

Sensors Randall and Thornton of Louisiana are openly in favor of the hearings. Senator Martine and others have expressed themselves favorably to them, but they will have leaders assert that they will have enough votes to defeat the Penrose amendment when it comes up Tuesday. The bill will then be formally referred to the finance committee.

Secretary Redfield suggested today to Chairman Simmons that the committee consider the advisability of changing the date that some of the schedules become effective. The textile industry it particularly desirous of gaining a little time to adjust itself to the new conditions and to get rid of valuable material upon which high duties have been paid.

Another suggestion made by Secretary Redfield referred to the advisability of having the income tax computed from July 1st, 1913, instead of January 1, 1913.

CIVIL SERVICE REQUIREMENTS OF FOURTH CLASS POSTMASTERS

Regulations Are Issued Regarding Examinations by Postoffice Department.

Washington, May 10.—Fourth class postmasters must be able to read, to count accurately the money they receive, to measure the oil cloth on the floors of their office and to write at least a decipherable letter once in a while; to be under the wing of the civil service. In effect they must have reasonable understanding of "reading," "riting," "rithmetic," according to regulations issued today by the postoffice department. Persons to take the civil service examination must be a citizen of the United States over 21 years old and must reside in the community served by the office he aspires to fill. No one will be eligible who is crazy, an ex-convict, who has been dishonorably discharged from the army or navy or who is disposed even occasionally to abuse the visible supply of strong drink.

All examinations will be conducted by the civil service commission, and will be not for appointment generally but for a particular office. The eligibility for appointment after examination will be for one year only, except in special instances. The examinations will not be severe but will be sufficient to test the business capacity of the applicants.

REPUBLICAN LEADERS MEET IN CHICAGO

**Work for Convention This
Year to Reorganize
Republican Party**

WILL TALK INFORMALLY

Leaders Will Hold Informal Conference Before Monday's Meeting Is Called

TO GET PARTY ON SOLID BASIS

CHICAGO, MAY 10.—United States senators and Republican leaders from various parts of the country began to arrive here today with the avowed purpose of promoting a movement for a Republican national convention this year to reorganize the party upon progressive lines.

The purpose of the convention as described by Senator Albert R. Cummins of Iowa would be to change "conditions in the party so as to prevent a recurrence of what happened at the last Republican national convention."

Besides Senator Cummins those who arrived today were Senators C. I. Crawford of South Dakota, William S. Kenyon of Iowa and L. Y. Sherman of Illinois. Senators William E. Borah of Idaho, Asle J. Gronna of North Dakota and John D. Works of California. Senator Cummins said, are expected to arrive tomorrow together with former Governor Hadley of Missouri.

Will Discuss Situation Informally.

"There probably will be representatives here from Massachusetts, New Jersey, Michigan, Wisconsin and most of the middle West states," Senator Cummins said. "Our purpose is to talk over the situation informally until Monday. Then have a meeting Monday and get through by noon. We are simply Republicans who want to get the party back on a solid basis along progressive lines."

"The movement for a Republican national convention this year has already become pretty well defined. It will be an extraordinary thing but the result of the last election calls for some unusual action. The Republican national committee will meet in Washington May 24th. We hope before that time to thoroughly discuss and be able to present to the committee the necessity for a national convention. A national convention this year of course would not have to nominate anybody and it would not be dominated by the ambitions of anyone. It simply would get together in a spirit of harmony and devise plans for the best interests of the party."

Among the things it is proposed to accomplish are:

"To change the basis of the representation according to Republican strength and not according to the accident of the representations of states in congress."

"To modify any other custom of the party which might interfere with the modern, progressive spirit in the Republican ranks."

Senator Cummins was asked if an attempt would be made at the convention to amalgamate the Republican and Progressive parties.

"No such will be made," the senator answered. "But it will be like the Lord's supper—all who believe may partake."

"Certainly no Representative of any other party will participate in our conference here. This will be a conference of Republicans only. Senator LaFollette will not be with us, but I think he is in harmony with our movement. Let me say, too, that we will have no secrecy about it. After our conference Monday we will give out all the details."

Questioned as to how delegates might be chosen to the convention if one were called this year, especially "states which provide for primary elections, Senator Cummins said that was a problem that would have to be solved later. Neither had it been discussed, he said, where and when the convention might be held.

ORDERS WERE GIVEN TO TEST OFFICERS' ABILITY

Washington, May 10.—The little fleet of submarines have started from Newport, R. I., for Norfolk to execute in Chesapeake Bay and off the Virginia Capes some of the drills and exercises they omitted when last in those waters. The "hurry-up" orders given to the officers last night at Newport were intended merely to test the readiness of the officers and men to respond to an emergency call and probably would not have been given had it been known that the submarine ball had been set for that night.

"Personally," he added, "I like Chicago, but I don't care where it's held so long as it is within the present year."

Berlin, May 10.—The Prince Henry aviation contest will start from Weisbaden tomorrow with thirty-two official pilots contending, also some amateurs.

The Emperor, Prince Henry, the Bavarian Prince Regent and several grand dukes have offered special prizes. In addition there will be cash prizes of 70,000 marks (\$17,500).

BRYAN FORMULATES MESSAGE TO JOHNSON

**WILL SET FORTH VIEWS OF JAPANESE
GOVERNMENT ON PROPOSED LAW**

Formal Reply to the Jap Protest Will Not Be Made by the Administration Until Some Answer Is Received From the California Executive.

WASHINGTON, MAY 10.—Secretary Bryan tonight formulated a message to Governor Johnson of California setting forth the representations of the Japanese government and the views of the administration as to what was considered discriminatory in the Webb anti-alien bill, passed by the California legislature and now awaiting action by the governor. Mr. Bryan conferred with President Wilson on an hour, discussing details of formal protest filed by Ambassador Chinda. It was decided the secretary should frame a communication to Governor Johnson, but the nature of it was not disclosed. Mr. Bryan said the message would not be sent tonight. He probably will confer with the president tomorrow before despatching it.

Secretary Bryan conferred with the Japanese ambassador immediately after the conference with the president but it is believed that he merely advised him of the intended course of action. Formal reply to the Japanese protest probably will not be made by the state department until some answer is received from Governor Johnson as to his action on the bill.

The impression that spread in official circles tonight was that Secretary Bryan would urge the California Governor to refer the bill back to the legislature for modifications that would meet the Japanese objections. There is a well-founded belief that if Governor Johnson refused either to veto the bill or recommended modifications, California friends of the administration would try to invoke the referendum in an endeavor to delay enforcement of the law.

DYNAMITE EXPLOSION WIPES OUT SETTLEMENT

**Exploding of 1,500 Pounds of Dynamite
Kills Three and Injures Forty.**

Uniontown, Pa., May 10.—The explosion of 1,500 pounds of dynamite in the magazine of the Sunshine Coal and Coke Company's mine No. 1, 3 miles from Masontown, Pa., today practically wiped out the little mining settlement, killed three men, and injured 40 persons, 20 of them seriously. The cause of the explosion is not known.

Of the dead only one has been identified. His name is given as Harry Bossel. His head was blown off. The other two men were in the magazine when it exploded and were blown to pieces. Two of these injured may die.

The general store, the residence of Francis Rocks, an official of the company and 25 small dwellings were forced to move to another mining settlement.

SEEK NO TREATY WITH WHICH TO MENACE ANY PEOPLE OR NATION

Englishman Replies to Prof. Munsterberg's Remarks of Friday's Session.

Boston, May 10.—"We are here to seek no treaties or any understanding with which to menace any people of any nation," said Sir Arthur Lawley, one of the British members of the international congress that is arranging the celebration of one hundred years of peace among the English speaking peoples.

He was speaking at a banquet held here tonight in honor of the delegates to the conference and his statement was in reply to remarks by Prof. Hugo Munsterberg of Harvard university at yesterday's meeting of the conference in New York. Prof. Munsterberg said that there were many "non-English people" who regarded the movement as a fore-runner of an alliance between England and America antagonistic to Germany.

"We are here simply to further the arrangements for celebrating the centenary of peace," said Sir Arthur.

Former Secretary of the Navy John D. Long, who presided, said that the fortifications of the Panama canal are a challenge to war. A statue of Jesus, like the one on a lofty mountain overlooking Chili and Peru, would be a challenge to peace if erected at Panama, he said.

G. A. R. ENCAMPMENT IN CHATTANOOGA.

Chattanooga, Tenn., May 10.—The 1913 encampment of the Grand Army of the Republic will be held in Chattanooga in September. A committee of citizens appointed a week ago to decide upon advisability of having veterans of the union army to have their reunion here, to day extended the invitation to Commander-in-chief Alfred Beers by telegraph. General Beers telegraphed from his home in Bridgeport, Conn., that he accepted the invitation.

ROB EMPEROR OF HAND BAGS.

Berlin, May 11.—According to the Morgen Post the emperor was robbed of two alligator handbags while returning by train from his recent visit from Strasbourg. The handbags contained articles of personal use.

STATE TROOPS DEFEAT FEDERALS

OUTNUMBER FEDERALS AT REYNOSA AND SACK TOWN

When the Inhabitants Saw That the Constitutionalists Outnumbered the Huerta Force They Fled and Crossed the American Border to Safety.

BROWNSVILLE, TEXAS, MAY 10.—Four hundred constitutionalists defeated 250 federal troops at Reynosa, state of Tamaulipas, Mexico, late today killed five government soldiers, wounded 15 and captured the town and burned the important buildings. The constitutionalists losses are not given in the reports of the battle reaching this city.

One Mexican woman was killed and three Mexican men wounded at Haddaigo, on the American side of the Rio Grande. Missiles also struck the United States immigration station at Mission but injured no one.

Twenty one federals crossed the river where they were taken into custody by Sergeant Burgess and four men of Troop M, Fourth United States Cavalry. He remained fled in the direction of Matamoras, 52 miles away.

Inhabitants Flee.

When the constitutionalists began to advance upon Reynosa, the 2,500 inhabitants of the place saw the Huerta troops were outnumbered and fled to the American side.

Matamoros opposite Brownsville also is fearing a rebel advance and so is fearing a rebel advance and hundreds left their homes tonight and came here. The Matamoros garrison numbers less than three hundred men. Reports from Reynosa say an attack on Matamoros is contemplated not later than Monday.

It is reported the rebels also burned Rio Bravo, 12 miles east of Reynosa. It 500 inhabitants sought safety on United States soil.

The town is headquarters for an important irrigation enterprise.

Paral is Captured.

El Paso, Texas, May 10.—Paral, rich mining center of Southern Chihuahua state, is in the hands of the constitutionalists, the federal garrison of 1,500 having evacuated.

Loss Estimated at 400.

Nogales, Ariz., May 10.—After an estimated loss of four hundred men on both sides in fighting which lasted from 3 o'clock yesterday morning until nightfall, 2,500 federals were driven back to Guaymas the California gulf port by 3,000 revolutionists. Heavy canooding reported to day from Ortiz the state troop base indicated the attack on Guaymas proper had begun.

The official insurgent report states that 150 soldiers and 35 officers were captured, and ten machine guns abandoned to the state troops. Among the killed was Colonel Martinez, chief of the federal artillery. To assist in the actual attack on Guaymas 250 cavalry are on the way from Agua Prieta, opposite Douglas, Arizona. All Sonora border towns to day celebrated the victory.

A latter reports says the federals were driven from their new advance trenches just out of Guaymas, leaving 200 dead to day's fighting.

Montelova Surrenders.

Mexico City, May 10.—A special despatch says that General Pena entered Montelova without resistance to day.

Advices to President Huerta report that General Maza is approaching Guaymas with 90 men. Another despatch to the president says that General Ojeda has arrived at Mazatlan and will proceed immediately to Guaymas, where according to the government there are now 5,000 federals.

PROTEST AGAINST METHODS OF CURRAN COMMITTEE

Peoria Women Indignant Over Course Pursued by Body.

Peoria, Ill., May 10.—Peoria society women, members of the board of managers of the Home for the Friendless, the institution which came under the ban of the Curran committee's criticism on Friday, made public tonight an indignant protest against the methods which have been followed by the children's home investigation committee during its session in this city.

Signed by the members of the board, everyone of whom is a woman prominent in the social world in this city, the protest labels the Curran committee criticisms as absolutely unjustified and promises an answer in full in the near future. The members of the governing board composed of the cities most prominent are very indignant over the criticism. The Curran committee completed its sessions here this afternoon and the members left for Chicago tonight.

CAR MEN'S STRIKE TIES UP TRAFFIC

Cincinnati, O., May 10.—Not a wheel on any car operated by the Cincinnati Traction company is turning tonight. The strike of the newly organized union of street car employees thus far has been successful beyond even their own fondest hopes as much as they have completely blocked all traffic and the citizens late today were using every other mode of conveyance available to reach their homes in the suburbs. The strike so far has been a decidedly peaceful affair, not a case of rioting having been reported by the police.

DISCUSSES PROSPECT FOR CURRENCY LAW

**President Wilson Talks
Over Situation With
Oscar Underwood**

GLASS TO BE CHAIRMAN

**Representative Glass Will Be
Chairman of Banking and
Currency Committee**

COMMITTEE NOT YET MADE UP

SATURDAY IN CONGRESS.

Senate

Not in session.

Meets Tuesday 2 p. m.

Territories committee continued its hearing on Alaskan problems.

House.

Met at noon.

Majority Leader Underwood, Progressive Leader Murdock and Minority Leader Mann conferred on committee appointments.

Passed bill to admit free duty exhibits for San Diego exposition.

Bill appropriating \$600,000 for the hire of clerks for the parcel posts was passed.

Representative H. Olin Young, twelfth Michigan district announced his intention of resigning.

Passed bill creating new district judgeship in eastern district of Pennsylvania.

Adjourned at 5:45 p. m., until noon Monday.

WASHINGTON, MAY 10.—President Wilson today discussed with Chairman Underwood of the ways and means committee, the general situation in congress and the prospect for currency legislation, which the president is anxious to have considered and passed at the present session if possible. The president was particularly interested in the organizations in the committees of the house. He was anxious to learn the complexion of the Democratic side of the banking and currency committee which the ways and means committee acting as a committee is now preparing to select.

Mr. Underwood told the president that Representative Carrier, member of the banking and currency committee of the last house would be selected as chairman. Representative Glass was chairman of the sub-committee on banking and currency which made an extensive investigation last session of currency reform measures with particular attention to the so-called Aldrich currency plan endorsed by the national monetary commission.

The president believes the making up of the house banking and currency committee should be finally decided upon as soon as possible in order that the members may begin work on a currency bill to be brought in soon after the house resumes active sessions early in June. The banking and currency committee has been tentatively selected by Mr. Underwood and his colleagues of the ways and means committee but the names are still subject to shifting before finally announced. As now shaped up these members who were on the committee in the last congress will remain:

Glass, chairman; Corbely, Indiana; Buckley, Ohio, Neely, Kansas; Byrns, South Carolina; Brown, W. Va., possibly Stephens, Mississippi; Demore and Hayes, California; and Guernsey, Maine, Republicans.

Representative Talbot of Maryland, prefers to remain on the naval affairs rather than sacrifice that assignment for place on the banking and currency, and Taylor of Alabama, prefers the rivers and harbors committee, while Stephens of Mississippi, is said to be slated for a place on the good roads committee.

A petition for a call for an early caucus of the house Democrats to create the good roads committee was circulated in the house today. The final approval of the new men on the banking and currency committee will not be vouchsafed, it is understood until their currency reform views are made clear, the object of the leaders being to secure as effective reform legislation as possible in the house as quickly as possible.

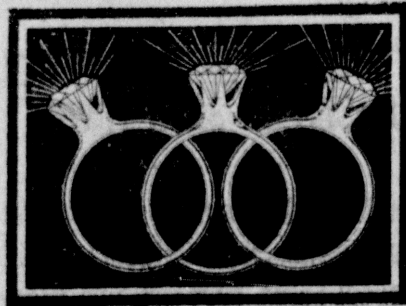

There will not be many changes in the important chairmanships in the house though will have to be new heads of the agriculture, for which Lever of South Carolina, is slated and for immigration in the event Burnett of Alabama elects to change to some other committee.

VISIT FORMER HOME OF GEORGE WASHINGTON.

Mt. Vernon, Va., May 10.—President Wilson, accompanied by Mrs. Wilson, paid his first visit since becoming president to the former home of George Washington and stood for some minutes bare headed before the tomb of the first chief executive. The president motored from Washington and spent a couple hours wandering over the old homestead and estate.

ILLINOIS STATE MEDICAL SOCIETY

SIXTY THIRD ANNUAL MEETING
TO BE IN PEORIA.

Largest Attendance in History of
Organization Expected—Motion
Pictures Illustrating Nervous Dis-
eases Part of Program—Local
Physicians on Program.

The Illinois State Medical Society will hold its 63rd annual meeting in Peoria, May 20, 21, 22, with headquarters at the Jefferson hotel. On account of the special features of the program the meeting promises to be the best ever held in the history of the organization. Dr. Carl E. Black of this city, who is chairman of the Board of Trustees, which constitutes the council of the society had much to do with the arranging of the three days session. Dr. L. H. A. Nickerson of Quincy, president of the society has been making a canvas of the entire state in order to increase the membership, organizers having been at work in every county. By the time of the state meeting it is expected to enroll 6,500 members, which will be the largest state society in the country.

To Have Motion Pictures.

A new feature of the annual meeting will be motion pictures, illustrating various nervous and mental diseases by Dr. Theodore W. Weisenberg of Philadelphia. This will be shown on two different occasions. It will consist of eight reels and four hours will be consumed in showing the pictures. One reel will illustrate the care of the baby. This is the only set of mental and nervous pictures which is complete.

Arrangements have also been made with the Edison company, who will send a man to show how to motion pictures of clinics are made and he will discuss the values of such clinics.

Index of Medical Books.

For the first fifty years the society issued a book each year, showing just what the society had been doing. In 1899, the society started to issue a Journal, monthly, and this is continued to the present time.

A laborious task has just been completed under the editorship of Dr. Carl E. Black of this city, of making a complete index of all the volumes published up to the year of 1899. The major portion of the work has been performed by Miss Ella B. Lawrence, librarian of the Morgan County Medical Society. The index contains pictures of a number of the leading physicians, and all the references to them during their connection with the society a man showing the location of every member in the state; a picture of the members taken at a former meeting in Peoria in 1871. This index is completed and is now in the hands of the printer. Each member of the society will receive a copy of the index free, which will be sent in advance of the meeting.

Dr. Black will appear on the program, his subject being "The Displacement of the Colon." The paper by Dr. Johnson on "Three Score and Ten and After" will be discussed by three physicians, among them Dr. T. J. Pitner of this city. Dr. Frank P. Norbury is chairman of medical section number one.

Status of Vital Statistics in Illinois and Our Obligations—T. H. D. Griffiths, State Board of Health, Springfield.

Discussion by C. W. Lillie, East St. Louis, and M. G. Heckard, Chicago. A Country Surgeon's Experience in Stomach Surgery—J. W. Hamilton, Mt. Vernon.

Report of a Case of Transplantation of Bone for Ununited Fracture of the Right Tibia, with Remarks on Osteogenesis—J. E. Allaben, Rockford.

Discussion by M. L. Harris, Chicago. Sporotrichosis in Man—W. W. Hamburger, Chicago.

Operative Treatment of Ununited Fractures About the Wrist Joint—D. B. Plummer, Chicago.

Auricular Fibrillation—Frederick Tice, Chicago.

Discussion by J. A. Capps and L. J. Pollock.

A Clinical Research on the Surgery of the Upper Abdomen—A. D. Bevan, Chicago.

Discussion by Frank Billings, J. B. Herrick and B. W. Sippy.

The Early Identification of Tuberculosis of the Lungs—Summer Miller, Peoria.

Artificial Pneumothorax in the Treatment of Pulmonary Tuberculosis, with Cases—E. A. Gray, Chicago.

Discussion by C. A. Elliott, Chicago.

"Much Ado About Nothing."

IS 90 YEARS OLD.

William N. Ledford, one of the highly respected citizens of Jacksonville celebrated his 90th birthday last Tuesday at the home of his daughter, Mrs. Emma Corrington on Webster avenue. Mr. Ledford came to Illinois when a young man from Salem, North Carolina. His wife died last December, the parents having celebrated their 63rd wedding anniversary a few months previous to her death. Mr. Ledford, though rounding out the century mark, is quite well and active.

WOMAN'S DANGER PERIOD.

is said to be from 45 to 50. What should be a most natural change in a woman's life, is, on account of modern methods of living, fraught with most annoying and painful symptoms. Women when passing through this critical period should rely upon Lydia E. Pinkham's Vegetable Compound, as it has proved wonderfully successful in carrying women safely through the change of life.

A Successful Combination

The Roberts Bros. Drug and Grocery Store

The success which this establishment has achieved in a little more than eighteen months furnishes the most positive proof of the desirability of conducting a grocery and drug store under the name roof. It was a new idea in Jacksonville but the increasing business in both departments has shown the wisdom of the plan. People appreciate the opportunity they have of ordering even the smallest article they may need from our pharmacy and having it delivered with their groceries.

BRADLEY WINS FROM ILLINOIS

SWAMPS LOCALS BY SCORE OF 13 TO 3.

Wheeler Proved No Terror to the Peorians Who Annex Contest in Easy Fashion—How the Runs Were Made.

Illinois college met defeat at the hands of Bradley Polytechnic Saturday afternoon on Bradley field, by a score of 13 to 3. Illinois' defeat was due to the hard hitting of Bradley.

Wheeler's offerings seemed to be no puzzle to the Peorians. Twelve hits mixed with six bases on balls enabled the Bradley men to walk away with the game. Bradley started the scoring in the third inning. By means of a double, a triple and two singles three runs were netted. Illinois got one in the same inning. Stewart drew a base on balls, and scored on Darragh's drive.

The fifth inning proved fatal to Illinois. Three bases on balls, four singles, mixed with two passed balls and a stolen base enabled Bradley to score seven runs. Bradley came back again in the sixth inning with three more runs as a result of a single, Jaccard's error, a single, base on balls another single and an error by Stewart, who dropped a long fly to center field.

Illinois took on a little more life in the eighth making two runs. Pierce was out by a long fly to center field, Gary singled, Stewart flew out to center field; Furr was safe at first on an error by Stecker; both Gary and Furr scored on Darragh's long hit. Darragh was caught trying to stretch the hit into an extra base. Thus ended Illinois' agony. She score:

EDUCATION NOTES.

Three fourths of the teachers in Alabama are holding their first position. Only seven per cent of the teachers now employed have taught more than two years.

The foreign interest in American physical education movement is shown by the fact that a recent German periodical devoted its leading article to "The Camp Fire Girls of America."

The English government is planning to provide scholarships and other aids which will make possible a university education for every boy or girl who makes a certain standard.

The governor of Georgia set aside one day in the year as "Public Health Day," to be observed in every school in the state, according to information received at the United States bureau of education.

All the states in the union except Nevada and Arkansas have definitely organized state committees for the fourth international congress on school hygiene, to be held in Buffalo, August 25-29.

Eighty-five American teachers recently sailed for the Philippines to take positions in the Philippine schools. The average age of the new teachers is 25 years. All but 24 of them are experienced teachers.

To promote moral education in the schools of France independently of religious doctrine is the object of the "French League for Moral Education." The league offers a first prize of \$1,000 and other prizes amounting to \$2,000 for contributions to a bulletin which it publishes.

The government of Belgium has invited the United States and separate states to be represented at the first international congress of cities to be held in Ghent in July. The congress will be devoted to the two main topics of city building and the organization of municipal life.

How illiteracy is about to be banished from a Kentucky county through the "moonlight schools" is interestingly told in a statement by Mrs. Cora Wilson Stewart, superintendent of the United States commissioner of education. The school workers have on record the name, location and history of every illiterate in the mountain county, and are able to make a special study of each individual case. One by one the illiterates are interested in the work of such schools as the "Moonlight School on Old House Creek"; in the past two years the thousands and more illiterates have been reduced to a few hundred; and it is believed that the last vestiges of illiteracy will be wiped out by the close of the present year.

GRAPE JUICE AND GRAPE FRUIT

If you have never tried Welch's grape juice served with grape fruit you have missed something delicious, something invigorating. As a breakfast appetizer, or as the first course of your luncheon, just make the experiment with this combination.

The Truth About Welch's Grape Juice

Welch's Grape Juice is nothing but the pure juice of the finest Concord Grapes grown. A few hours after these grapes leave the vines they are washed, rinsed, stemmed and pressed and the juice is hermetically sealed in glass. It is a drink without a drug. It satisfies the thirst. It is a true tonic without an evil aftermath.

ON VARIED THEMES.

A holdup at an early evening hour within a few blocks of the Jacksonville public square would be unlikely if the streets were well lighted. A city with plenty of light is a well-policed city and the time is not far distant when Jacksonville must do something to improve its system of lighting.

And the latest remedy for the high cost of living is alfalfa. Prof. Holden, crop expert is preaching the doctrine that if farmers will grow and develop alfalfa extensively that the crop will tend to decrease the price of beef and that in this way living cost will go down. In Sangamon county the Alfalfa association is very busy holding meetings in Springfield each Saturday with addresses by prominent agricultural workers. This week an alfalfa train of automobiles will move all through the county and meetings will be held in a score of places. W. B. Huffaker is the secretary of the association.

A Decatur citizen has offered a prize of five dollars for the best looking five dollar graduating dress made by any young woman of the senior class in the Decatur high school. The idea behind the offer is excellent for too often it happens that the girls of poorer families have a feeling of discontent or jealousy when they appear on the platform commencement day along with the others more richly clad. In Fort Wayne, Ind., a movement has been started to have a uniform commencement day dress for the high school and this plan is certainly in accord with the idea that the high school is "the people's college," where all should be on an equal footing and appear to equal advantage.

Jacksonville is certainly getting to be a convention city. The past week the Illinois Mothers Congress was in session here and within ten days now there will be a thousand or more Redmen in the city for the state convention. The Retail Merchants of the state will gather here for their next convention and Saturday the Illinois T. P. A. selected Jacksonville as the convention city for 1914. These last conventions were secured because representatives of Jacksonville went after them and put on a hard and diplomatic fight for them and because in addition Jacksonville is well fitted to entertain such gatherings. Railroad facilities affecting Jacksonville are good and there are more beauties to see and more places of interest to visit in Jacksonville than any other city of twice the size in Illinois.

No one could attend the sessions of the Illinois Congress of Mothers which recently adjourned in this city without being convinced that the Congress is earnestly engaged in a serious work. Witness these sentences from the constitution of the congress. "The objects of this Congress shall be to raise the standards of home life; to give young people opportunities to learn how to care for children so that when they assume the duties of parenthood they may have some conception of the methods which will best develop the physical, intellectual and spiritual nature of the child; to bring into closer relation the home and the school, that parents and teachers may co-operate intelligently in the education of the child; to surround the childhood of the whole world with that wise, loving care in the irresponsible years of life that will develop good citizens." If we solve this question of the welfare of the children, every other question will solve itself.

The testimony of both Miss Maude Robinson and Lieut. Gov. O'Hara before the special senate committee in Chicago yesterday clears the lieutenant governor of any charge of immoral conduct. It is not possible to say how much of the testimony, however, cannot be said to have strengthened O'Hara's position as the highly browed leader in a sweeping investigation of vice conditions. While there was nothing wicked about the conduct to which he has given his acknowledgment he told enough of his two days doings to indicate he is familiar with sporting life at least to the point of knowing that it is a fact that someone took the trouble to secure it in an effort to shut O'Hara off indicated that the present investigation is going deeper than some people desired. It is significant too that a wholesale liquor dealer had such a large part in securing the affidavit.

Dr. Quale a special investigator for the Illinois Senate vice investigating committee of his own volition testifies that Jacksonville is one of the cleanest cities in the state of Illinois. Anyone who takes the trouble to inquire into this subject and compare conditions here and elsewhere will hold the same opinion as this expert "sleuth." It is doubtful if the average citizen appreciates what a healthy city Jacksonville is from a moral standpoint. The average citizen accepts the condition without much thought and either does not think of this subject or supposes that cities are about the same in this respect. "The more I see of their cities," said a Jacksonville citizen yesterday "the prouder I am of Jacksonville and the more fully do I realize what a splendid home city we have here. The moral life of Jacksonville is of healthier tone, is better than any other city I know and I have had occasion to look into the subject in other cities from various angles." When some resident of a vice ridden city tells you that times are quiet in Jacksonville just remind him that there is a certain kind of quietness that is greatly to be desired. Jacksonville is one the cleanest cities in the

big state of Illinois—that's worth remembering.

A bill which is now being considered by the Illinois legislature if adopted would confer upon county superintendents of schools an authority which would virtually make them responsible for every undesirable country school house. By the powers afforded by this bill the county superintendent can compel directors to make improvements and in some cases this is needed. In recent years there has been some advance in the care taken in having country schools comfortable and sanitary but there is still room for improvement even in some cases in Morgan county. The bill gives the county superintendents the power to approve plans, and specifications for the erection of remodeling of school buildings when the same comply with the specifications and requirements respecting lighting, heating, ventilation toilets, water supply and protection against fire, made and published by the superintendent of public instruction.

Also to request the State Board of Health, the state architect or the state fire marshal to inspect school buildings which appear to him to be unsafe, and insanitary or unfit for occupancy. If the report is unfavorable the building can be condemned as the distributive fund withheld until conditions have been improved.

T. P. A. CONVENTION

State Convention at Quincy Closes Saturday With Election of Officers—Several Local Men Return.

Quincy, Ill., May 10.—The Illinois division of the Travelers Protective Association of America in convention here to day elected the following officers:

F. W. Dudley of Decatur, president.

David McMaster, of Abingdon, first vice-president.

G. M. Sedgwick of Canton, second vice-president.

W. C. Becker of Belleville, third vice-president.

Charles Fouchier of Cairo, fourth vice-president.

The directors elected were G. W. Powell and C. G. Cole of Peoria and William Michaels of Campaign.

Jacksonville was selected as the next meeting place, Springfield being the only other city to ask for the convention.

The convention was attended by more than seven hundred delegates and visitors, Peoria having the largest delegation.

Part of the Jacksonville delegation returned Saturday evening from Quincy, but a number remained to go on the free boat excursion that is to be conducted from Quincy to the Hamilton dam at Keokuk, Ia., and will take the train from that place to return home. The excursion will be personally conducted by the superintendent of the dam.

The sessions of the convention were held in the Empire theatre and when President Ehrie took the chair he was presented with a handsome gavel, as a mark of appreciation of his services and the esteem in which he is held by the organization. The gavel has an ivory knob and a bold band with Mr. Ehrie's name engraved thereon and also the fact that it was the gift of Post A. of Quincy.

H. H. Bancroft of this city represented Mr. Ehrie in making the response to the address of welcome by the mayor of Quincy and representative of Post A., and Fred Sharpe of this city presented the claim of Jacksonville for the convention. Mr. Bancroft made a brief talk in behalf of the local Chamber of Commerce. The convention will bring between five hundred and one thousand people to Jacksonville.

M'COLLISTER'S ARREST LEADS TO APPREHENSION OF OTHERS

Boy Implicates Johnny Green in Watch Theft, Who in Turn Blames Paul Stout.

When questioned by the police regarding a seventeen jeweled gold watch which he carried when arrested Friday night Edward McCollister told the officers he bought the time piece from Johnny Green for fifty cents.

When Green was arrested by the officers he acknowledged that it was one of two that were stolen recently from the clothes of Calvin Atchison and Warren Pierce, Illinois college students in the gymnasium at the college. He denied that he stole the watches, but implicated Paul Stout in the thefts. The police believe that the boys are guilty of a number of cases of larceny that have been committed during the past few months, and that the arrests will clear matters up.

The rubber tire valued at \$75 that was taken when the McCollister boy was arrested was identified as their property by Sample & Son Saturday. In addition to the tires taken Friday night a large roll was found Saturday by Officer Arenz in Dr. Wakel's back yard where it is supposed Duncan placed it. Clarence Duncan, who was arrested in connection with the theft of the rubber, was taken before Squire Over Saturday and gave bond for his appearance for a preliminary hearing May 20. The bond was in the sum of \$300.

Judge Thompson Saturday granted a temporary injunction on the petition of W. J. Pearson and John M. Stice, commissioners of road district No. 1, restraining W. L. Hopper, clerk of the district, for paying a warrant for \$1250 and executing a note for a like amount to the International Harvester company. The bill filed by J. O. Priest, attorney for the commissioners, maintains that Mr. Hopper unlawfully entered into a deal for the purchase of gas tractor at a cost of \$2500. It is claimed that he was an interested party in the deal and that the whole proceeding was unlawful. Further it is set forth that the engine was not new but second hand.

TWO WOMEN VICTIMS OF YOUNG HIGHWAYMEN

MISSES EMMA DOYING AND HARRIET ANDRE HELD UP.

Two Men Jump Out of Alley On Diamond Court and Snatch Purse and Knock Miss Andre Down.

While on their way home Saturday night about 8:30 o'clock Misses Harriet Andre and Emma Doying were held up at the intersection of Morgan street and Diamond Court, by two unknown men who knocked Miss Andre down, secured her purse and escaped.

At the point where the hold up took place it is unusually dark as the turn in the street does not allow the light from the lamp on West College avenue to penetrate the gloom there and the men were not noticed by the women, until they jumped from the darkness of Morgan alley and snatched their hand-bags. Miss Doying succeeded in retaining her purse. Miss Andre struggled with the men who knocked her down, and tried to hold her hand-bag but to no avail. The men quickly disappeared into the dark alley, going east.

The young women went into one of the residences nearby and notified the police of the hold-up. Officers Shannon and Arenz were immediately sent to the scene, but no trace of the robbers could be found, and the purse could not be located. The street, however, showed signs of a struggle, as there was candy and a number of articles scattered around. Miss Andre's hand-bag contained about \$5 or \$6 in money, a bunch of keys, a check made payable to order and a fountain pen.

The only description of the men that the young women could give was that they were about 18 or 19 years of age and that one wore a cap and sweater. The darkness was so intense that they could not tell whether the men were black or white, but they thought that they were white.

All of the police were on the lookout for the criminals but on account of the meagre description of the men, were handicapped and have not been able to apprehend them.

FIND BOMB IN THEATRE.

Dublin, May 10.—A tin canister containing forty-two gunpowder cartridges was found tonight in the lavatory of the Empire Palace theatre. The cartridges were padded all around with cotton saturated with oil. A cotton cord, also oil-soaked was attached to the canister, and the cord was burning where the bomb was found.

A girl formerly employed at the theatre was arrested. Nothing is known, however, to connect her with the suffragette movement.

FIGURES ON FOREIGN MISSIONS.

Presbyterian Church Stands Fourth in List for Gifts in This Work.

The income of the Presbyterian board of foreign missions last year places that board fourth in point of annual revenues in the list of great missionary societies of the world. The other three are the church missionary of England; the Methodist foreign, United States and the Roman Catholic faith, France.

The Presbyterian board has last year, according to a report just made public and to be presented to the general assembly at Atlanta, next month, an income of \$1,581,620, exclusive of the Kennedy legacy. There came from the Presbyterian churches \$21,500 more than the preceding year, and from Presbyterian women, \$11,100 more, these sums representing the growth from the missionary campaigns of recent years.

The next increase of the contributions from churches and women was, however, more than offset by decreases from young people's societies and other sources; so that the total received last year was less by \$70,000 than the preceding year. Anticipating growth, the board made appropriations last year of \$145,000 more, and in consequence must report at Atlanta a deficit of \$63,300. The total income of this board, including profits on its building in New York, was last year \$1,848,383. For some years there has been criticism of the New York Presbyterian building, its expenses and management, and former President Harrison served on an assembly committee to look into it. Now, as is claimed, the increase of rentals from the development of lower Fifth avenue, more than justifies the policy which created it.

HOW TO TREAT AILING CHILDREN

Growing children play hard and work hard at school, which with rapid growth uses up an enormous amount of energy and vitality that must be replaced.

When a child is tired all the time, no appetite, weak, delicate and sickly we guarantee Vinol, our delicious cod liver and iron tonic, will build them up, create a hearty appetite, sound flesh and muscle tissue, pure healthy blood, and make them strong.

Mary Lang of Altoona, Pa. writes: "Every since childhood I have been weak and delicate and my blood has been thin and poor. Many different forms of treatment did me no good, but last spring I took Vinol and now I am so much stronger and better that I want you to know it. I don't know when I have felt so well and vigorous as I have since taking Vinol."

If Vinol fails to do just what we say, we will give back your money. Lee P. Allcott, druggist, Jacksonville, Ill.

FLOUR AND THE TARIFF.

By Underwood Bill Provisions Canada and England Would Fix Price of Wheat.

Many farmers in this section will be interested in the following opinion of the proposed Underwood tariff measure as related to flour and wheat. The statement is made by one who has studied the proposition:

"When the farmer in such great wheat growing states as Missouri, Ohio, Indiana, Illinois, Kansas, Minnesota and the Dakotas realize how the apparent protection of ten cents per bushel upon foreign wheat and the admission of foreign milled flour duty free affects the earnings of his farm, there is sure to be an outcry that will make itself unmistakably heard in Washington."

"The truth is that under the present provision of the Underwood bill there will be no protection on wheat because foreign milled flour will be admitted free."

"The result will be that mills in Canada, Argentina, Australia and other wheat growing countries and especially Great Britain, whose flour mills located on the docks of her principal ports, draw wheat from all over the world, will ship flour to New York and other seaboard markets, and sell there at less than a United States mill would manufacture the same grade of flour from wheat grown in the United States."

"A Canadian miller would likewise flood the interior and seaboard markets with flour below the bare cost price of the United States miller selling in competition."

"The immediate results would be that the American miller can only buy American grown wheat at a price in competition with foreign grown wheat, raised by the underpaid laborers of Russia, South America, India and other countries, whose standards of living are far below that of the American farmer."

"The salvation of the American wheat grower depends upon the American miller, who asks no favor, but simply seeks an equal opportunity with foreign millers in the home market."

"Every farmer is vitally interested in this question and he should therefore lose no time in communicating his views to the congressmen from his district and to the United States senators from his state. He should arouse his neighbors to the gravity of the situation and through his local farmers' organizations or granges utter a loud and insistent protest."

"The duty on foreign wheat does not help the American farmer unless there is an equal duty on the products of foreign wheat."

"As the Underwood bill is now well on its way to passage any action to be effective must be immediate."

QUICK RELIEF

George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began to use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.

"DIVORCE SUNDAY" IN CHICAGO.

Chicago, May 10.—At the suggestion of the Illinois divorce commission the pastors of Chicago's leading churches have agreed to observe tomorrow as "Divorce Sunday." The observance will consist in the preaching of sermons dealing with the evils of hasty and ill considered marriages and the increase in the number of divorces.

THIEF STEALS JEWELLED HAND CUT OFF BY CAR.

White Girl Is Being Taken from Under Train Vandal Flees with Severed Member Containing Rings.

New York, May 10.—Felice Buerger, a native of France, who has been a maid for several wealthy women in this country, fell from the platform of the elevated station at Columbus avenue and Eighty-first street in front of a train last night, and among other injuries suffered the loss of her left hand, which dropped to the street. One one finger of the hand were two rings, one a diamond. Some one in the street stole the hand.

Miss Buerger had walked to the north end of the station and just as a train drew in she fell from the platform, possibly in a faint and toppled to the rails. When the train was stopped, Miss Buerger was conscious and directed the half dozen men who leaped to the ties in their work of taking her from under the truck.

She had been bumped and bruised severely, possibly three ribs were broken, her limbs cut and bruised, and she probably had suffered internal injuries, but she did not know she had lost a hand.

"Please handle my hand carefully, it is all cut," she said. Then she looked and realized for the first time that her left hand was gone. "Where is my hand?" she said calmly. "There are two rings on one finger—one a large diamond. Please don't lose them; they are very dear to me."

A few minutes she was carried downstairs, although she wished to walk, and placed in an ambulance

and taken to a hospital. At the hospital the physicians said she lost consciousness. Her condition later was critical.

FIRE LOSS NEARLY A MILLION DOLLARS

Fires in Illinois during the month of April damaged buildings and their contents, altogether valued at \$9,081,609, to the extent of \$959,258, according to the monthly report of the state fire marshal.

There were 729 fires during the month, 452 in Chicago and 277 outside of Chicago. Although the buildings in Chicago that sustained fire loss were valued four times as great as were those outside of Chicago, the damage done buildings in the rest of the state was almost four times as great as was the damage to buildings in Chicago.

Origin of 200 of the fires was undiscovered. Sixteen were of incendiary origin. Sparks were responsible for the greatest number with known causes, being credited with 122. Cigar smokers are blamed for 16.

WHAT IS THE YOUNG MEN'S CHRISTIAN ASSOCIATION An Investment.

It is a high-class, far-sighted investment in the greatest undeveloped resources in the world—the young men.

It is a wise economical enlistment of young men themselves in the work of their own development. It is a philanthropic and also self-interested provision of an all-round opportunity for young men.

It provides a gymnasium; the young men use it; and put increased health and vitality into their day's work.

It provides a night school; the young men join it, and gain and keep the higher places waiting for skilled labor and efficiency. It provides the Gospel; the young men practice it; and the community cuts down expenses for asylums, courts and jails.

It provides and organizes the time; the best and busiest in the community; the young respond to it and develop latent powers of character and service.

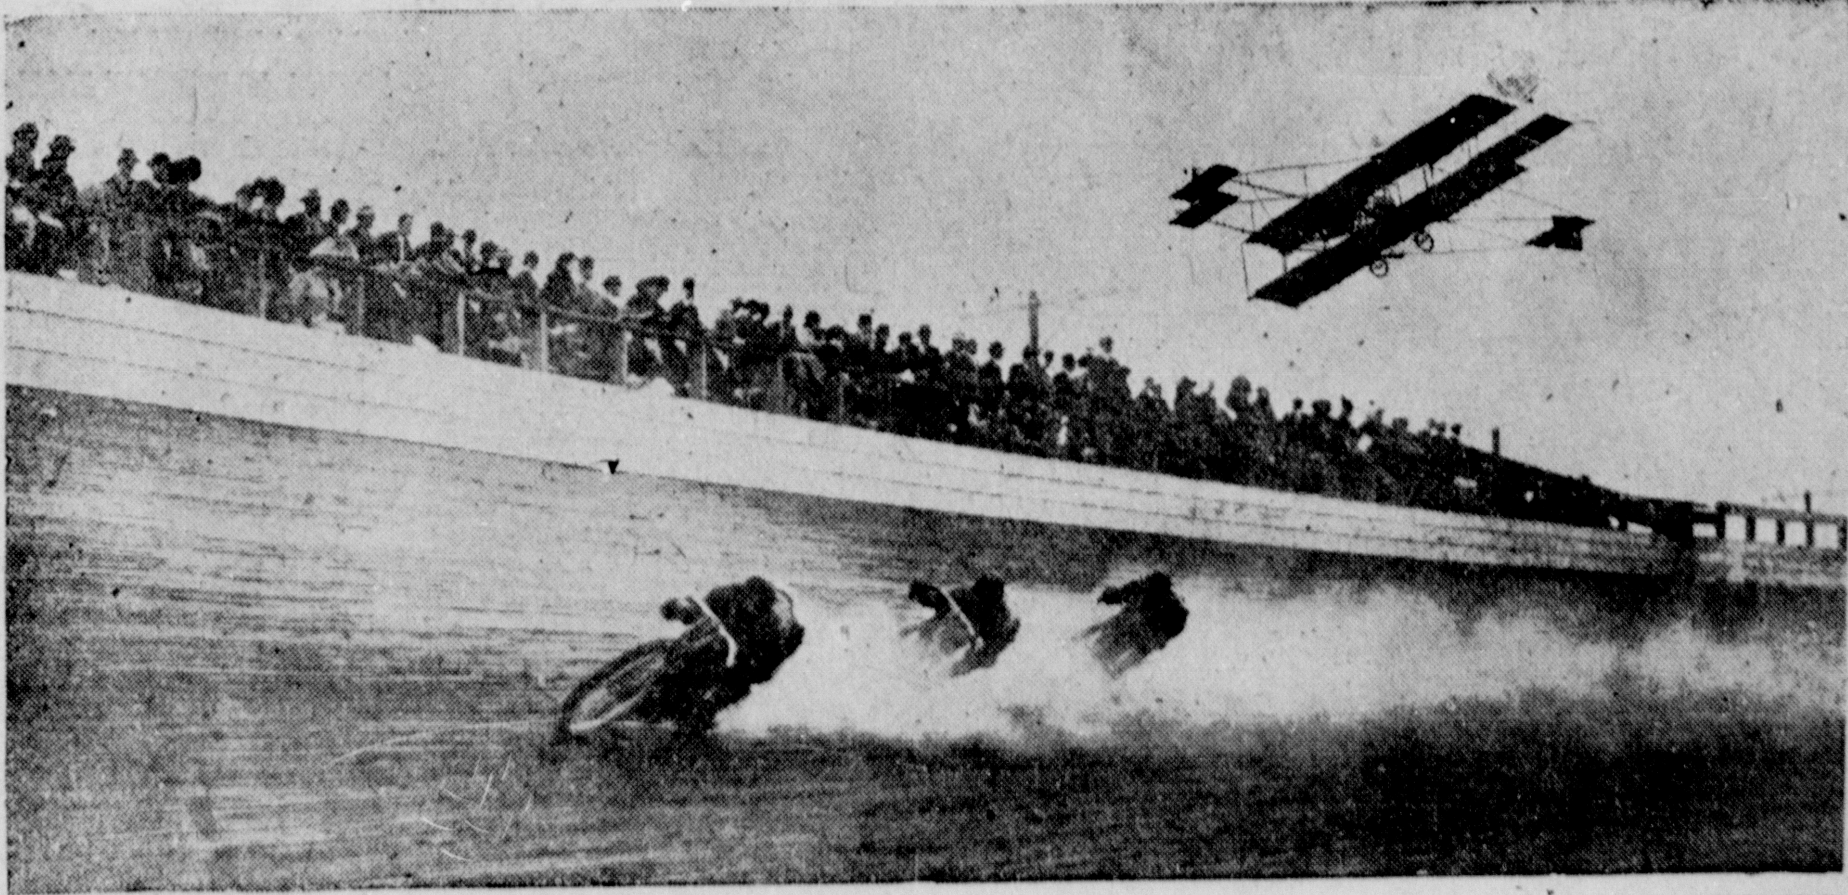

It invests money; it gets manhood. It invests sympathy; it gets friendship.

It invests small sacrifices; it gets abundant and deathless dividends. It invests time and things that might otherwise perish; it gets character that continues and perpetuates itself in vital and constructive forces, for the moral and spiritual uplift of the world.

Its investment are human; its dividends are divine.

Speed Fiends Await! Start of the Great Races

A View to be Seen Next Wednesday and Thursday at the Trotting Park

Interest in automobile, motorcycle and aeroplane races is growing keener every minute. The rain yesterday moistened the track and with a day of sunny weather the local speedway will be one of the fastest in the state. The speedy racing cars that have entered will begin to practice and tune up on Monday on the track and the aeroplane will be assembled and everything put in readiness for the big speed carnival. Jimmie Ward and his "Shooting Star," as he calls his Curtiss racing aeroplane will arrive on Monday

and the Trotting park will have the appearance of a regular aviation field.

The management has provided a chief surgeon and several assistants of whom will be in constant attendance on the ground. An emergency hospital will be fitted up on the ground in case of any accident to the drivers or aviators there will be immediate medical care. Jimmie Ward, who is the premier birdman of the meet boasts of being the only aviator who has never disappointed a crowd by not

making any flights. He has made over 3000 successful flights in this country and abroad and the people who will turn out to see this daring aviator will not be disappointed as Jimmie Ward will fly in rain, shine or cyclone. To see Ward perform his death defying stunts in the air overcoming the law of gravity itself is alone worth the price of admission. There will be daily altitude tests, accuracy in landing, bomb throwing, spiral slides and passenger carrying. Each day will have its big feature.

Another feature of the meet will be sending and receiving wireless messages from an aeroplane while in flight. Arrangements are made to have a wireless operator go up as a passenger with Jimmie Ward and flash messages to a neighboring wireless station. A complete program of daily events will be announced in this paper in the next issue and Manager Friedman promises a carnival of speed and daring, the like never as yet seen in this vicinity.

Brooklyn, May 10.—Six doubles, three triples and a home run were included in the fourteen hits made by the Brooklyn club as the Cincinnati pitchers today the home team walking away with a 9 to 3 victory. Score:
Cincinnati . . . 2 0 0 0 1 0 0—3 7 1
Brooklyn 4 0 0 3 0 0—9 14 2
Batteries—Packard, Suggs, Harter and Clarke, Kling, Ragan and Miller.

ATHLETICS WIN LAST.
St. Louis, May 10.—Philadelphia won the last game of the series from St. Louis today, after the locals had tied the score in the ninth 8 to 6. Score:
Philadelphia . . 0 0 3 1 0 1 1—8 12 4
St. Louis 2 0 0 1 0 0 3—6 11 2
Batteries—Plank and Lapp; Stone, Leverage, Hamilton and Agnew.

Johnson has pitched fifty-two and two-thirds innings without being scored upon. This comes near Doc White's record of fifty-six scoreless innings. Walter will no doubt equal if not surpass this record in his coming game at St. Louis this week. He will probably work Wednesday. There was some doubt about the exact number of innings Johnson had to his credit, but information from Chicago last night gives the number set forth above.

The Eagles' game at Franklin today should be a good one. The honor of the Athens of the west is at stake and it will never do to let that little bunch of bush leaguers walk away with the laurels from the proud representatives of this conglomeration of culture. Not by a jugful. So spread your wings, ye Eagles and fly home with the game safely clasped in the shadow of your pinions. Selah! CUBS DEFEAT GIANTS

Chicago Takes First of Series from New York By 2 to 1 Score

Giant's Six Mistakes Were Largely Responsible for the Cub's Victory

NEW YORK, MAY 10.—Chicago took today's game 2 to 1, scoring the winning run in the eighth inning. New York's only run was made in the seventh. The only faulty play on the Cubs' side was Evers' error at second, while the Giants had six misplays marked against them.

CARDS AND BRAVES TIE.

Boston, May 10.—Boston and St. Louis played a 12 inning 1 to 1 tie game this afternoon the contest being called on account of cold weather. It was a pitchers' battle between Tyler and Perritt, when the latter was taken out in the tenth inning to allow a pinch-hitter to go in. Sallee finished the game and struck out four batters in three innings. Boston's run was due to errors. Score:
Boston 0 0 0 10 0 0 0—1 7 2
St. Louis 0 0 1 0 0 0 0—1 5 2
Batteries—Tyler and Whaling, Rariden; Perritt, Sallee and McLean, Wingo.

NEW YORK MARKETS FEEL BENEFIT OF EUROPEAN PROSPECTS

Smoothing of Difficulties in Way of European Peace is Felt By World's Markets.

New York, May 10.—New York, in common with all world markets, felt the benefit of the smoothing of difficulties in the way of European peace by Montenegro's submission of Sautari to the disposal of the powers, but that this particular step was not considered conclusively shown by the moderate effect produced on markets and by the renewed hesitation later.

Other symptoms showed that financial strain whether due to the political position, to preparations for increased armaments or to credit inflation in business was unrelieved. Engagements of gold in New York for shipments to Paris was made to the amount of \$8,000,000.

Various indications of restricted money supplies in the future are little calculated to relieve the prostration of investment demand for the new security issues, which is keeping up with the difficulty for railroad and corporations of procuring needed capital. This urgent necessity also spurred on the railroads to secure funds.

The government's estimate of a bumper winter wheat crop is supplemented by reports of a forward condition of planting of spring wheat and favorable conditions for all crops. This is expected to prompt a liquidation of grain reserves which would effectively relieve the heavy loan expansion of western banks.

**NOTHING SENSATIONAL
AMONG PRESENT "HOPES"****PRESENT "WHITE HOPE" CROP
MAY SOON BE FORGOTTEN.****Luther McCarty Disappoints New
Yorkers—Is Said to Have Lost the
Aggressiveness that Characterized
His Work in Matches Last Year
With Stewart and Willard.**By James J. Corbett,
(Former Heavy-weight Champion of
the World).

One of these fine days—perhaps
sooner than we think—some strap-
ping young fellow will come along
and make us forget such fighters as
McCarty, Willard and "Gunboat"
Smith ever boasted championship
pretensions. It looks as if the pres-
ent "white hope" crop is a big bust.
McCarty is generally accredited the
best of the pale face boxers. But if
we are to pass judgment on the
punch by Luther's recent exhibition
with Frank Moran it is a case of
looking for new material. Possibly
Jess Willard may show a flash of
form in the bout with "Gunboat"
Smith at San Francisco next Satur-
day which will restore our confidence
in the "white hope" so, for the "Gun-
boat" has already been tried and
found wanting. If Smith can beat
Willard and follow it up with a vic-
tory over McCarty it will be the end
to holler for a new deal all around.
As a championship possibility the
"Gunboat" does not look like the
goods.

Willard therefore appears to be the
last resort in the ranks of the white
heavies now before the public. He
may be a better man than we think.
Certainly he has not been extended
in any of his bouts and what little
he has shown is of a higher order
than that of his rivals. In the New
York engagements Willard did not
seem to take his work seriously, yet
he managed to outpoint McCarty and
knock out the tough Soldier Kearns,
he of the mighty wallop, in eight
rounds. If Jess can be persuaded to
look upon fighting as a serious propo-
sition his chances would appear much
brighter. So far in his short career
he has not been badly hurt in a bout
and it remains to be seen how he will
behave after taking a few good
punches. In Smith he is meeting a
fighter who can hit every bit as hard
as Kearns and with a better general
idea of where the punch is going to
land after it has been started. If
the "Gunboat" succeeds in putting
over his justly famous right swing
and less survives the operation there
will no longer exist a doubt of his
gameness and coolness under fire.

Luther McCarty looks like a good
thing going wrong. As a result of
the experience gained during the
California campaign where he de-
feated Kaufman, Flynn and Palzer,
it was thought Luther would show the

New Yorkers a greatly improved
style. But in this he disappointed.
He has picked up a little here and
there in his boxing, but has lost the
aggressiveness that characterized his
work in the matches with Stewart
and Willard last year.

Physically this young giant is a
picture of the ideal fighting ma-
chine. But the resemblance ends
right there. In the Moran bout Lu-
ther had every physical advantage,
and was much the better boxer. Still
he had a tight fit to earn the popular
verdict over a man who knows
scarcely anything about the game
other than to put up his hands and
strike an attitude. Furthermore
Moran, a ten pound lighter man,
was handicapped with a cripple hand
and forced to help altogether on his
left throughout the ten rounds. Con-
sequently it would be unfair to con-
demn the Pittsburgher for his failure
to make a better showing. More-
over Frank is not claiming any
championship titles. He is a big,
strong and willing fellow who is do-
ing the best he can and is probably
conscious of his shortcomings as a
pugilist. His best is not very much
to brag about as gauged by cham-
pionship standards of the past; still
it is enough to enable him to stick
the full routes with the present head
liners whenever he makes the at-
tempt. Frank went twenty rounds
with the "Gunboat" not so very long
ago and had no trouble staying ten
with McCarty, crippled as he was.

"Gunboat" Smith who was among
those present, was heard to remark
that he could "put either McCarty
or Moran away in less than ten
rounds." Talk is a cheap commodity.
Smith couldn't knock Moran out in
twenty rounds in California. The
best he could do was to get the de-
cision, and a close one at that. Since
the "Gunboat" failed to stop the
slow moving and slow thinking Rode-
l his stock has taken a decided slump.
Any boxer who can dodge his wild
swings for a few rounds stands an
excellent chance of trimming Jim
Buckley's candidate.

"Gunboat" will have his work cut
out in the Willard bout next Satur-
day if there is anything in the dope.
That match will decide who is to get
first crack at McCarty—after Luther
gets through with the easy marks he
is hunting up Calgary way. Conse-
quently it behooves Honorable Gun-
boat to get himself in the best pos-
sible condition to fight his best pos-
sible fight, else he may find his name
in the "has been" column Saturday
evening. Willard may look like a
boob—some say he acts like one—
but he has so far proved fully equal
to the task of protecting himself
against the assaults of the "Gunboat"
type of fighter.

A recent despatch from Calgary,
Alberta, possibly inspired by Tommy
Burns, who prompted the match,
reads as follows: By reason of his
good showing against Andy Morris of
Boston, Arthur Pelky looms up as a
formidable opponent for Luther
McCarty, etc.

When Luther's engagement to box
at Calgary was first announced it
was given out that Carl Morris was
to fight Pelky and that McCarty

would meet the winner. Since learn-
ing that Boston Andy and not Okla-
homa Carl was one of the contestants
we can better understand Manager
Billy McCarty's eagerness to grab
the bout for Luther.

To illustrate how carefully McCarty
is managed it is only necessary
to recall that a purse of \$10,000 to
box Bombardier Wells at Madison
Square Garden was turned down
cold. Then came an offer of \$12,500
to meet "Gunboat" Smith. That
was also refused. Right on top of
those offers McCarty agreed to box
Frank Moran for \$4,000 and to take
the long hike to Calgary on a per-
centage basis. But in the "dead
ones" he is to box in Canada there
is little danger—also less money.

When Al Palzer left New York for
California last winter to box McCarty
he was a sick man. In fact, he
was in such shape that his friends
advised him to remain at home and
call the fight off. This Palzer refus-
ed to do as he believed the only
thing wrong with him was a stub-
born case of gripe and that the
sunshine of southern California
would bring speedy relief. But the
change did Palzer no good; he en-
tered the ring against McCarty in
poor shape and was beaten. At that
he was not even knocked off his feet
and was fighting his best when the
referee stopped the mill.

Since then Palzer has spent a
great deal of his time abroad where
Tom O'Rourke took him on the long
chance of getting a fight with Jack
Johnson, and only returned to this
country a few weeks ago. As the
big boxer failed to show any phys-
ical improvement Manager O'Rourke
decided to have a specialist examine
him, with the result that Al is now
in the hospital convalescing from an
operation which is said to have re-
moved the source of all his trouble.
The "doc" promises to have Palzer
in condition to camp on the trails
of the heavies within the next six
weeks.

And gladly will his return to the
ring be welcomed by local boxing
enthusiasts with whom Palzer is a
great favorite. It has always been
a puzzle to those who have seen both
McCarty and Palzer in action just
how the former managed to score
over the Iowa farmer. While the
stories of Al's illness were figured as
the usual "alibi," recent develop-
ments have proved that he was in
no shape to fight at the time, and
the fact that he lasted so long was
due to his marvelous stamina and
gameness.

One thing must be said in favor
of Palzer. He is as game as they
come. He never takes a back step,
and is always tearing in. That is
hardly the system most productive
of good results, but it is all Al
knows. He is simply a big piece of
fighting machinery. If ever he
learns some other method of defense
than that of stopping blows with his
jaw or other parts of his anatomy
he might get by. But as it is when
he wins he takes more punishment
as a general thing than the man he
beats, and it would take a physique
of iron to stand the gaff in such allo-

pathic doses.

O'Rourke says the Palzer-Johnson
battle will take place next fall if
the negro escapes punishment by the
federal authorities. Well, I don't
know how far the coon has gone
back since the Flynn fight, but if
stories of the life he has been lead-
ing are true it would not take a
Langford or Jeannette to lick him.
And if he can prevent it is not
likely that either of those colored
stars will ever get the chance to box
the champion. Johnson is foxy
enough to realize that he is the only
black champion this country has ever
known, and as such is an idol of his
race. He would scarcely take the
chance of letting another member of
the colored family rob him of those
honors. Particularly as there would
not be a great deal of money in the
transaction, while a battle with the
best white heavy-weight for the title
would mean a fortune win or lose,
and even in defeat would mean no
great loss of prestige among the peo-
ple of his own color.

To the General Manager of the Kitchen:

You doubtless realize that the success of your cooking and baking
hinges to a great extent on the range you use. It is therefore vitally impor-
tant that you have a range that will give the most perfect results, a range that
will make every day's work a pleasure rather than a task.

Cooking with gas on a Detroit Jewel Cabinet Style Gas Range has proven a
revelation to many women who once used other methods. They now work in
comfort in a cool kitchen. When they are ready to bake they turn on the gas
and the scientific oven construction of a Detroit Jewel insures perfect results.

Best of all, the one-piece star-shaped burners mean the smallest possible
consumption of gas.

With the Cabinet style there is no bending or stooping. Everything is on
a line with the eye. Can you imagine anything more convenient or essential
to your best efforts in the kitchen? Why not look into the proposition fur-
ther and see for yourself just what a Detroit Jewel Cabinet Gas Range will
mean to you?

WOMAN'S COLLEGE NOTES.

The May Day event, to which great many people in Jacksonville and surrounding territory were anticipating took place Wednesday evening at 6 o'clock on the campus. The affair was an unqualified success in every way. The college in this public way wishes to thank all those who contributed in any way in bringing about this result. In spite of the great number who were present the order was perfect and was the cause of much favorable comment. The tennis tournament will be the tennis tournament. It will begin before very long and the plan is to have the tennis games played on the last Saturday of the month so that they may be witnessed by the many guests who may be here. In connection with the tennis tournament the faculty have offered a beautiful silver cup as a trophy for the winner. This will stimulate the entries in the tournament and be a most desirable object for which we strive.

President Harker announced Friday at the chapel exercises that it had been decided to build the first section of the permanent set of bleachers to be used in connection with the athletic events of the school. These will be completed by the time the tennis tournament begins.

Next Monday night the academy graduating class will present a play called "Rainbow Kismet." There is a small admission fee charged for this and everyone is invited to be present.

Miss Vera Tomlin of Browning, Mo., gives her senior recital in expression Friday afternoon at 4:15 in Music hall. Upon this occasion Miss Tomlin will read "When Knighthood was in Flower," by Edwin Casskoden.

Thursday evening at 8 o'clock in Music hall will occur the Wesley Mathers contest in declamation. There will be a great deal of interest in this contest as the prizes are greatly worth while. All friends are cordially invited to be present. There is no admission charge.

The concluding number in the Artists' course was given Tuesday night by Dr. E. A. Steiner, who had as his subject, "The new immigrant and the new problem." Dr. Steiner's address was followed most closely by the entire audience and was one of the most enjoyable as well as instructive numbers on the course. The attractions for 1913-14 are now being arranged. Announcement of the talents secured will be given later.

There was a large audience present to hear the vesper concert given last Sunday afternoon in Music hall by the members of the faculty.

Miss Edna Murphy, who has completed the course in public school music, has been appointed to a responsible position in Armour, S. D., where she will be supervisor of music in the public schools.

Miss Frances Freeman has been pointed to the township high school in Marion, Ill., as their teacher in home economics, and Miss Agnes Rogers has been appointed to the assistant's position in the Jacksonville high school.

During the past week the college had a great many visitors, especially parents, who came to enjoy the May day festivities.

ILLINOIS COLLEGE NOTES.

The members of the cast "Much Ado About Nothing" have been given a large amount of time to the final rehearsals. Those who have been privileged to witness the rehearsals predict a very successful performance of this delightful Shakespearean comedy at the opera house, Tuesday evening.

Peter Prins and Ernest Alford went to Delavan on Friday to act as judges at the Tazewell county athletic meet.

Carl E. Robinson, '09, was recently elected president of the Whittier Law club of the University of Chicago. This club is a kind of moot court. Ordinarily only a third year student in the law school is eligible to the presidency of this club. Mr. Robinson is only completing his first year at the law school.

A Geometric Interpretation of the Function "E" in Hyperbolic Orbits, corresponding to that of the Eccentric Anomaly "E" in Elliptic Orbits, was recently published in the American Mathematical monthly.

TO WELCOME PEACE DELEGATES

Washington, May 10.—A hearty welcome awaits the Canadian and British commissioners for the celebration of the Ghent Treaty centennial when they come to this city the first of the week to pay their respects to President Wilson. J. Brown Scott, secretary of the Carnegie endowment for international peace, and Henry F. McFarland, former president of the commissioners for the District of Columbia, are at the head of a local committee that is arranging for the entertainment of the visitors.

LOOK AT TUBERCULOUS PROBLEM FROM TWO VIEW POINTS

Disease is Such That It is Matter for Both Sociologists and Physicians to Handle.

Washington, May 9.—A physician and a sociologist discussed the tuberculosis problem today before the ninth annual meeting of the National Association for the Study and Prevention of Tuberculosis, each from the standpoint of his profession. Each acknowledged the value of the other's work, but insisted that fundamentally his own profession was best equipped to deal with the problem. The papers were presented by Dr. William Charles White, medical director of the Tuberculosis League of Pittsburgh, and John R. Commons of the Wisconsin Industrial Commission, professor of political economy in the University of Wisconsin.

Sociological or Medical. "One of the burning questions of the day," said Dr. White, "is whether tuberculosis is a sociological or a medical problem. That such discussion goes on probably proves that it is both. We are seeking to discover if the sociologist should employ the doctor, or the doctor employ the social worker; or, will the time come when all doctors and nurses will be social workers, and all social workers, doctors or nurses."

"On the long path by which our present knowledge has come, all the milestones are doctors—Hippocrates, Bayle, Laennec, Morton, Villemin, Koch, Trudeau, and many others. No social worker, so far as I know, has contributed any great advance."

"The social worker may be called the drum beater before the door of the booth. He shouts to the program ready prepared. He shifts his work from tuberculosis to child hygiene, social diseases, and associated charities, as readily as the stock company actor changes his play, and yet that man has no message who is too fastidious to beat the drum at the door of his booth. The reason for the social worker in tuberculosis will be found in the exclusion of tuberculosis from the general hospitals and other places of medical teaching and the consequent ignorance of doctors and nurses on the whole question of this malady as a public health problem. The doctors that do not know find more ready response to their teaching among the intelligent laity than among the profession. There is now, however, a healthy movement to return this seventh of the world's sickness to its proper place in the hospital and medical school."

"The majority of the problems in connection with the tuberculosis question, such as immunity, heredity, chemistry of lung and tubercle bacillus, cure, food, values, etc., are medical in their nature, and must be solved by those of medical training. The social side of the question comes down to more and better food and better living conditions."

Both Specialists Meet. "The physician," said Prof. Commons, "starts with the individual. The sociologist starts with his institutions. The physician looks on other individuals as sources of contagion or infection. The sociologist looks on them as owners of property. The one sees them as physiological units; the other as possessors of power, or of intangible property which we call opportunity."

"Tuberculosis and occupational disease, safety and sanitation, infant mortality, hours of labor of women and children—these are some of the fields of scientific research and governmental administration where the physician and the sociologist meet. Here the physician must get beyond physiology, contagion and infection, and deal with the institutions of property, the family and the state, that make environment what it is. Here the sociologist must get into physiology and pathology, if he would not go wrong in dealing with institutions."

"The difference shows itself in administration. Compare a board of health with a bureau of labor. When a board of health determines that small pox or diphtheria is about it rides over each property right of the individual. It marks off a dead line of quarantine. It becomes policeman, calls out the militia, declares martial law, sets aside the fourteenth amendment. But when a bureau of labor finds tuberculosis in a factory or a tenement, it comes dead against the vested rights of the owners, the poverty of the occupant, and the federal constitution. It cannot shut down the factory in order to stop the clouds of dust, steam or fumes. It must go into court. It must follow due process of law. It cannot follow empty advice for the occupants to go to a sanitarium. It cannot content itself with an order to use spittoon cups. It must actually change the conditions under which the occupants work and live. But the conditions spring from property rights and personal rights, and these are founded on social institutions which rest in turn on the constitution."

Special Department Suggested.

"I can conceive of such an organization of the executive or administrative branches of government as will utilize promptly the work of experts and yet not be dominated by them. Suppose we had in every city and state and in the federal government a department commissioned by the people to wipe out tuberculosis. There could hardly be another department of government more far-reaching. It would have to go into every home, factory, hospital and public building. It would have to touch every property and personal interest of the people. It would jar the traditions and prejudices of the courts, of vested rights and of personal liberty. Those in charge of such a department would require, first of all, wisdom, tact, energy and force, rather than expert knowledge. Such qualifications belong to no scientific profession as such—they are the qualities of the business man, the organizer, promoter, executive, the judge, the politician."

"But this should not blind us to the function of true sociology as a

science or organized society. As such it is a necessary equipment of the successful executive. The executive must organize all forces or society to attack his particular problem. He must act upon the unity of the body politic just as the physician must recognize the oneness of the human body. If the dentist strikes a sore tooth he makes the feet jump. If the executive attacks tuberculosis he hits property and liberty. So the executive must secure the co-operation of all interests and all experts, of charity workers, of child labor societies, visiting nurses; the police force, sanitarians, physicians, schools, priests, employers, landlords. He must know what each can contribute and where each will jump. His field is applied to sociology. He is a practitioner of sociology. He must co-ordinate the experts. If experts are left to themselves, then they conflict with each other and nullify each other by trying to dominate each other. The competent executive uses them all at the points where they are useful. Let the experts realize their modest but indispensable talents, their narrow horizon, but solid foundation, and then they will co-operate by assisting those who are called upon to execute."

CLEAN UP.

Everybody cleans house in the spring. Why not clean up the yards and the alleys adjacent to your property. Jacksonville will have several conventions here within the next few weeks. The city is doing its part in the work of cleaning up. Why not help us. Every city in the state at the present time has a house cleaning week. Jacksonville should have one. I therefore set aside the week of May 5 for a general house cleaning and would ask all citizens to take part in it and make it a success. The department of streets and public improvements will furnish teams to haul away your refuse if it is placed in a convenient place and a notification sent to O. H. Spaulding, superintendent of streets.

Mayor.

TO CHOOSE HEAD

OF BENEDICTINES.

Rome, May 10.—Eighty abbots of the Benedictine order, including several from the United States, assembled in Rome today in order to elect a new abbot general who will have the direction of the affairs of the order throughout the world. The Benedictines form one of the oldest of religious associations. The order was founded early in the sixth century by St. Benedict, who introduced monastic life into western Europe. No religious order has been so remarkable for extent, wealth and men of note and learning as the Benedictines. The order is said to have had 40 popes, 200 cardinals and several thousand archbishops and bishops. Numerous emperors and kings of long ago also belonged to the order. The Benedictines have never taken any prominent part in politics, but have produced many literary works.

TO STOP SHIPS' SPEEDING.

New Orleans, May 10.—Methods to stop vessels from coming up the Mississippi river at full speed during high water were discussed at a joint meeting of levee boards here today. The wash from ships, especially the larger ocean liners, is a serious menace to the levees during the flood stage and severe measures probably will be authorized in order to hold the boats to a maximum speed of eight miles an hour. Seven United States war vessels were accused of plying the river under full headway. It was pointed out that the danger had been increased greatly with the opening of the Southwest Pass, which permits the entrance of the largest vessels into the river.

The Keeley Cure for the Liquor Disease

Has No Rivals as Far as Results Are Concerned

The Keeley Institute, Dwight, Ill.

Beautiful location. Delightful surroundings. Finest accommodations. Fireproof. Equipped with every modern convenience for comfort and safety.

The Keeley Cure Is Permanent

"This is the twentieth anniversary of my reincarnation and release from the bondage of the Demon Rum. Completely cured—the accursed appetite never to return."

This is a sample letter; we have many, many thousands like it. But we never publish names of patients, without their consent.

In a number of instances we are allowed to use names of men who have been cured, as references, and will be glad to do so, and convince inquirers of the truth of our claims, if desired.

We manufacture and sell Home Remedies which cure the Tobacco Habit and many forms of nervous troubles.

Full Information on Request

Booklets and full detailed information sent in sealed, plain envelope on request.

You can save that brother, relative, friend, employee from ruin, disgrace and death? Will you do it?

400,000 men have been saved by the Keeley treatment during the last 32 years! 400,000 families restored to happiness! New hope and joy and ambition brought into the lives of approximately 2,000,000 people! Isn't there someone you can help?

Drunkennes Is a Disease

Dr. Leslie E. Keeley proved that drunkenness is a true disease. It affects the nerve cells, producing in them a demand for alcoholic food. And it paralyzes the sufferer's will power and ability to resist.

Not one man in a thousand can stop immoderate drinking of his own accord. No more than he can cure himself of smallpox or brain fever. He must have help!

How the Keeley Treatment Cures

The Keeley remedies cure by removing the artificial alcoholic appetite from the nerve cells, and restoring them to their natural condition.

The Keeley medicines are nerve tonics. They cause no sickness or nausea. They are absolutely non-injurious and leave no ill effects of any kind.

The "craving" for drink is not the disease. It is simply the symptom of some irritation or inflammation. When the nerve cells are restored to their normal, healthy condition, the appetite for alcohol disappears.

We also cure Opium, Morphine and other drug addictions. The drug is withdrawn gradually and there is no shock, collapse, prostration or sickness. Full particulars in plain, sealed envelope on request.

We have a Chicago office, Suite 906 Rector Building, 79 W. Monroe Street, where arrangements may be made.

NOTES & REPORTS

Jacksonville Wins Again.

A telegram from the Jacksonville delegation at Quincy states that this city will entertain the T. P. A. convention for 1914. This shows what a crowd of boosters for any city can do. We have remained unconcerned in the past, and now that a new spirit is taking hold of us, let us continue to advertise Jacksonville, by making this a true "Convention City."

We Must Spend To Make.

We have never known what it is to pay much more than dues into our commercial organization, and then we complain if it does not do big things for the city. Briefly stated the Chamber of Commerce can never grow to be a power of influence in Jacksonville, if we pay our small dues and then have the nerve to call it a contribution. How can you expect to get your money's worth when you leave the secretary to do all the work.

Cities that are up and doing are those which boast of a live business men's organization which is supported by more than dues. You cannot depend on the man retired from any business, no matter how wealthy he is to main your Chamber of Commerce. It is the business men that must be responsible and if they have no interest in advertising and boosting the town, all work must cease. At the regular meeting of Tuesday eve, the directors must devise some plan for financing this organization. At present, we haven't one cent for publicity, and the secretary has been held responsible for insuring such obligations.

We must spend money for advertising before we can bring strangers to Jacksonville, and the sooner some of us loosen up and get out of the habit of thinking we can boost Jacksonville with a cent instead of a dollar, we will boom on a proportionate scale. Won't you encourage the officers you have elected by investing money that will indirectly benefit you or the town.

What We Need.

The Publicity Committee has conservatively estimated that the Chamber of Commerce should have at \$1,000.00 to spend in advertising the rest of the year. The secretary has not one piece of printed matter which can be mailed to a stranger who is interested in locating in Jacksonville. Compare that with the amount Peoria, Rockford and other live towns spend and you will think we will need more.

A Pleasant Surprise.

For the first time since the noon-day luncheon feature has been in-

augurated, the women and the men will sit down together on Monday, to hear Prof. A. R. Root, head of the landscape gardening department of the University of Illinois, as the speaker.

Mr. Wilhelm Miller was to be here with Mr. Root but has postponed his visit until a later date.

The luncheon will be held on the stage of the Grand Opera House in the midst of attractive scenery. The Grand Cafe will do the catering for 35 cents per plate, reservations having been made for 100.

This arrangement will permit the using of the lantern of the Opera House for showing slides and plans for beautifying a city by the assistance of a landscape artist. Every citizen of Jacksonville is invited to be present.

James H. Shaw.

Business Men Must Be Boosters.

The picture shows the business men on a tour of inspection of their city. Many of them visited places that they had never observed before. Until we are willing to join in these "know your city excursions" and interest ourselves in civic affairs, Jacksonville will be doing business in the same old way and at the same old stand, as we have been doing ten years prior, and as we will be doing ten years hence.

PHILIPPS INSTITUTE DEDICATED

Philadelphia, May 10.—An interesting program of exercises accompanied the dedication today of the new Henry Philipps institute of the University of Pennsylvania. The institute, which was presented to the university two years ago by Henry Philipps, has for its object the study, treatment and prevention of tuberculosis.

IDAHO WELCOMES ALIENS.

Boise, Idaho, May 10.—The prohibition of alien ownership of land in Idaho ceased today, by virtue of the action of the last legislature in repealing the restrictions that heretofore have prevented Japanese or other aliens from acquiring lands in this state. The repeal bill was passed on the grounds that outside capital was needed to develop the state.

FREE KINDERGARTEN.

The annual meeting of the Free Kindergarten association will be held Monday, May 12th at 3 p. m. in the assembly room of the public library. Reports of the year's work will be made. Officers for the coming year will be elected and other business transacted. The directors especially are urged to attend this meeting.

WRITES OF MARKER FOR CAMP OF GENERAL GRANT.

Rev. A. J. Green Wants Site at Naples Remembered.

Rev. Alden J. Green, of Bluffs, is one of the citizens of that community who is interested in marking the spot where General Grant ended his trip to the river before embarking on the Illinois. In the letter he says:

"Since writing last week, the suggestion that the camp of the 21st Illinois Regiment at Naples be marked in a suitable way has considerable interest has been shown and I have a letter stating that two large granite boulders lie at the side of the street within two blocks of the site of the camp. I have been down to see the boulders and they will serve splendidly for the purpose."

"One gentleman from Naples has written expressing that this spot be marked. A gentleman from Exeter visited me at my home and told me that he would like to see this pushed through to completion and offered to send a team and wagon to move any boulders that we might find. I told him that I felt that it would not be necessary to go so far for a team for three or four hours' work at the longest."

"I am convinced that this spot is of sufficient local interest to warrant us in going ahead. It was at this camp that Grant was ordered into actual service. Here his unusual march ended. Others are marking less important places than this. Rev. Mr. Rogers of Springfield has suggested that the room in the Sangamon county court house (then the state house) in which Governor Yates gave Grant his commission as colonel of the 21st, be sought out and marked with a bronze tablet. If that room in which the general was given his commission is of sufficient interest to mark, why is not his camp?"

"Why can't we take enough interest in this matter to push it through before Memorial day and on that day unveil the marker with proper ceremony."

CENTENARY OF MONTGOMERY BLAIR.

Washington, May 10.—O. J. C. Blair, the general postoffice today recalled the fact that this was the centennial anniversary of the birth of Montgomery Blair, the famous statesman who was postmaster general in Lincoln's cabinet and was the author of a number of important reforms in the postal system, such as money orders, free delivery in cities and postal railroad cars.

Born in Franklin county, Kentucky, of a family that had long been among the most distinguished and influential in the south, Montgomery Blair was graduated at West Point in 1853 and saw active service in the Civil war. Later he resigned from the army, studied law, and began practice in St. Louis at the age of 26. He was appointed United States district attorney for Missouri, and was elected mayor of St. Louis.

At the age of 29 he removed to Maryland, and three years later was appointed United States solicitor in the court of claims. Because of the repeal of the Missouri compromise he left the Democratic party and was then removed from office by President Buchanan. Before his removal he had acted as counsel before the supreme court in the celebrated Dred Scott case.

In 1890 Blair presided over the Maryland Republican convention and in 1891 was appointed postmaster general by President Lincoln. He alone of Mr. Lincoln's cabinet is said to have opposed without qualification the surrender of Fort Sumter. He was an extremely efficient postmaster general, but political complications in which other members of his family became involved, as well as his own radical personality, led to his resignation from the cabinet. His death occurred at his home in Maryland in 1883.

NOTICE! NOTICE!

NEWS FORECAST.

Washington, May 10.—The Canadian and British members of the committee for the celebration of the 100th anniversary among English speaking peoples will arrive in Washington Monday and will be received by President Wilson and his cabinet.

Secretary of State Bryan has accepted an invitation to speak at the second annual banquet of the Pan-American society of the United States, which will be held in New York Thursday. It is expected that Mr. Bryan will, in his address, give further public intimations of the policy of the state department in regard to the Latin-American republics.

Lawyer John N. Anshut will be placed on trial in New York Monday on an indictment charging him with bribery in connection with an attempt to liberate Harry K. Thaw from Matteawan asylum. Thaw will appear in court to testify in the case.

A court martial will meet at the New York navy yard Monday to try Captain Roy C. Smith, commanding the dreadnought Arkansas, regarding the death of officers generally as one of the most efficient officers of the navy. Captain Smith is charged with improperly risking his vessel, which ran on an uncharted reef off the coast of Cuba last February.

In connection with the annual commencement at the University of California the honorary degrees of LL. D. will be conferred next Wednesday on Secretary of the Interior Lane and Col. George W. Goethals, chairman of the Isthmian canal commission.

The attention of Presbyterians throughout the country will be centered on Atlanta, where the general assemblies of the Presbyterian church, North, South and United, will meet at the end of the week. It will be the first time in their history that the three general assemblies have met in the same city at the same time.

Other gatherings of note that will be held include the Southern Baptist convention at St. Louis and the Northern Baptist convention at Detroit, the child welfare conference at the National Congress of Mothers and Parent Teachers' association, which will meet in Boston; the international conference of the Y. M. C. A., at Cincinnati; the annual general conference of the Seventh Day Adventists in Washington, D. C.; the annual meeting of the National Association of Manufacturers, in Detroit; the annual convention of the Order of Railroad Telegraphers, in Baltimore; the meeting of the Imperial council, Nobles of the Mystic Shrine, in Dallas, and the 19th Lake Mohonk conference of international arbitration, at Mohonk Lake, N. Y.

FEEL NEED OF COACH.

Winchester Citizens are Discouraged Over Showing of School in W. I. H. S. L. Meet.

A recent issue of the Winchester Herald bemoans the standing that the high school of that place made in the recent Western Illinois High School league meet in Jacksonville. As is known Winchester did not get a point in the meet and made about as poor a showing last year. The paper commenting on the situation thinks the school is badly in need of a coach.

It says:

"Winchester did well, came home without a point, and we are informed that they will be given a chance to redeem themselves next year; should they fail to get a point we understand they will be barred from the association. The other schools of the association have what is known as a coach, or trainer, to prepare their contestants for the events, where Winchester has not. Why can't they? If we are still to take part in these events, why not have a trainer for our boys so that they can be able to compete with the other schools of the league in a creditable manner. If our directors have no funds that can be used in this manner, why can't it be raised by donations or benefits of some kind or other? While personally, I have no one who can take part in these events, that is for the present, I am willing to contribute my mite towards getting our school on the eligible list and pushing her to the front. How many of you are willing to, and will help?"

ADMINISTRATOR'S NOTICE.

Estate of Julius F. Pratt, deceased.

The undersigned having been appointed administrator of the estate of Julius F. Pratt late of the county of Morgan and state of Illinois, hereby gives notice that he will appear before the county court of Morgan county, at the court house in Jacksonville, at the July term, on the first Monday in July next, at which time all persons having claims against said estate are notified and requested to attend for the purpose of having the same adjusted.

All persons indebted to said estate are requested to make immediate payment to the undersigned.

Dated this third day of May, A. L. 1913.

Administrator.

SHRINERS GATHER IN DALLAS.

Dallas, Texas, May 10.—The 39th annual convocation of the Nobles of the Mystic Shrine, the first ever held in the southwest, will be ushered in here tomorrow morning with religious services in the Scottish Rite cathedral. Bishop Garrett will preach the sermon. For the next four days Dallas will be given over to the visitors, who with their families and friends are expected to number many thousands. Among the special features of entertainment which the Dallas Shriners will provide for their brethren will be a grand longhorn barbecue at the fair grounds, banquets, vaudeville, luncheons, shows and band concerts. For the visiting ladies there will be receptions, luncheons and automobile rides about the city. A grand tour of Texas will follow the close of the gathering.

SOCIALIST PARTY CONFERENCE.

Chicago, May 10.—The members of the Socialist party national committee are gathering in Chicago for the first representative Socialist conference that has been held since the appearance of the Progressive party and the establishment of the new political alignment. The conference will review the present political situation and discuss plans for the congressional and legislative campaigns of next year.

MEMORIAL DAY IN CAROLINAS.

Charlotte, N. C., May 10.—Throughout North and South Carolina today was set apart for the annual observance of Memorial day. In all the cities and towns of the two states business was largely suspended, while the day was given over to patriotic exercises and the decoration of the graves of the Confederate dead.

SCHURZ MEMORIAL UNVEILED.

Impressive Ceremonies Witnessed by Thousands in New York City Saturday.

New York, May 10.—With an interest stimulated by the fact that their famous fellow countryman was a citizen of the world, as well, and that the event has with wide interest thousands of German-American citizens of New York this afternoon witnessed the impressive ceremonies of the unveiling of the statue of Carl Schurz, who, forced to flee from his native land because of his revolutionary activities, became a citizen of the United States, and in his adopted home rose to positions of the highest distinction, serving in turn as minister to Spain, as a soldier in the civil war and as United States senator from Missouri, in addition to being a brilliant journalist and for half a century one of the most tremendous campaigners in American politics.

The statue occupies a commanding position overlooking Morningside park and surrounded by the Cathedral of St. John the Divine, St. Luke's hospital, and the buildings of Columbia university. The memorial was designed by Karl Bitter, assisted by Henry Bacon, the architect who designed the Lincoln memorial monument soon to be erected in Washington. The bronze full length figure of Schurz stands on a large granite pedestal. It is a nine foot statue showing Schurz in the long coat that he wore so often. The pedestal bears reliefs in polished granite and the inscription:

Carl Schurz,
Defender of Liberty and
Friend of Human Right.

Two large granite seats extend on either side of the statue and at each end is a relief containing allegorical figures representing the principal activities of Schurz—his work in behalf of the Indian and the negro, and his contribution toward the advancement of the human race.

The unveiling ceremonies were preceded by a parade of civil war veterans, state militia and German societies. Mayor Gaynor and other invited guests reviewed the procession from a stand erected near the monument. The unveiling ceremonies were of a simple but impressive character. Joseph H. Choate, chairman of the committee which erected the memorial, presided and the principal speakers were Ambassador von Bernstorff, Congressman Richard Bartholdt of Missouri, and Borough President McAneny.

Many guests of distinction occupied seats on the stand. Among them were Andrew Carnegie, Oscar Straus, Charles Francis Adams, Hor-

ace White, George Haven Putnam and Dr. Abraham Jacobi. Several generals who fought in the civil war with Schurz attended the ceremonies and there were also representatives from Hampton institute, toward which part of the Schurz memorial committee's \$93,000 fund will be devoted, and from Missouri, which sent Mr. Schurz to the senate after the civil war.

Mrs. Douglas Smith is at home after spending several weeks with her mother, Mrs. Allen Stockton residing four miles east of Litchberry. Mrs. Stockton has attained the advanced age of 84 years and is very feeble.

CLEAN UP JACKSONVILLE

Clean-Up Week ended yesterday with dozens of vacant lots, alleys, back yards, refuse piles in the rear of business houses and billboards remaining untouched.

Shall Jacksonville—OR—Shall Jacksonville
Have

- Dirty Streets and Alleys
- Billboards that hide refuse
- Vacant Lots heaped high with rubbish
- Unpainted and unattractive store fronts
- Nuisances which injure your health
- Garbage Barrells that are germ breeders
- Back yards with Ash and Tin Can piles
- Sheds and partly torn down old houses
- Public Dump Grounds within the City Limits
- Streets that have no Lights

This is an illustration of what was not cleaned up last week. There is not one citizen living in this beautiful city that can afford so own such appearing property. This is only one of the many places that can be found in every ward in Jacksonville.

- Have
- Well cleaned Streets and Alleys
- Vacant Lots that are clean and well kept
- Places in the heart of the city that need no billboards to hide them
- Iron garbage barrels with close fitting lids
- Store Fronts that typify a wideawake city
- Back Yards that could be front Yards
- Sheds and Houses that are painted
- Garden Spots instead of Dumping Spots
- Streets with boulevard lights

A STRONG REFERENCE.
A young man recently applied for
a position with a large printing
house, and not having a letter of
reference, offered his bank book. It
showed a regularity of entries of de-
posit. It was a very strong recom-
mendation, indicating character and
persistence, which finally secured for
him a good position.

RAILROAD STOCKS TARGET OF SPECULATORS

BEAR TRADERS HAMMER DOWN COAL CARRYING COMPANIES STOCKS.

Effect Was Increased by Continuation of Liquidation of Investment Stocks, Some of Which Touched Low Point of Several Years.

(By Associated Press)
New York, May 10.—The decision of the department of justice as reported from Washington to institute further proceedings under the anti-trust law against certain of the coal carrying roads made the stocks of these companies the target of speculative attack today. Bear traders succeeded in hammering down the coalers to a materially lower level, the declines ranging from 1 to 13 points. The effect on sentiment of this movement was increased by investment stocks some of which touched low point of several years. New York Central sold under 99. Low records for the year were made by nearly a dozen stocks.

In the face of these influences the active stocks in general held up fairly well. The trend was downward, but losses in most cases were insignificant. Predictions of a heavy falling off in United States steel's monthly statement of unfilled tonnage were fulfilled; in fact the decrease of nearly 500,000 tons was considerably more than had been generally expected. It constitutes the fourth successive decline in as many months. The total at the end of April, however, was over 1,300,000 tons in excessive of that of the corresponding period of the previous year.

The steel figures were not market factors today as they did not appear until after the close.

WILL OF JOHN MUSCH. FILED.

The will of the late John Musch, which disposes of an estate of \$70,000, has been admitted to probate, in the Cass county court. The property, which is practically all in notes, is divided equally among the children or their heirs, with the provision that where amounts have been advanced the indebtedness is to be deducted from shares of those indebted to his estate. The will was made September 26, 1906, and a codicil added later. Elijah Needham and C. B. Gatten were witnesses to both instruments, and Morris Jokisch and W. H. Musch executors.

"VUDOR" PORCH SHADES

Vudor Porch Shades are equally well adapted to the great mansion and the modest cottage, and will transform a sun-beaten porch into a cool, shady retreat, and you will get the full benefit of the porch to make it what it should be—a comfortable outdoor living room, cool and shady in the hottest weather, secluded and private.

PORCH SHADES

Not only make your porch
Cool by Day
but cool adjoining rooms, and
give you by night a perfect
Sleeping Porch

In the production of Vudor Porch Shades no effort has been spared; first, to design a shade with the strips and the space between them so proportioned as to keep out the sun but to let in the breeze; to prevent outsiders from seeing in, while permitting insiders to see out, and at the same time make a shade that has stability with lightness and beauty.

Second, in selecting the best materials for their respective purposes, a fine quality of wood-fibre was chosen for the strips or slats, because it has strength, flexibility and lightness, and because it is a good non-conductor of heat.

Vudor

PORCH SHADES

Not only make your porch

but cool adjoining rooms, and

Sleeping Porch

For binding these strips together seine twine, such as is used for fishing nets, was chosen because of its strength and wear-resisting qualities. Even the cords used for raising and lowering Vudor Porch Shades are of special manufacture, being what is known as "half-twist" cord. This cord does not curl nor loop up and stick in the pulleys as common twist cord would do. The pulleys furnished with Vudor Porch Shades are of jappaned iron and of ample size to permit of the cords running through them easily and freely.

Another good feature about Vudor Porch Shades is the peculiar fact that those sitting on the porch or veranda can see out, but the passersby cannot see in. In other words, you have complete privacy, and can use the porch or veranda the same as an inside room, with infinitely more comfort on hot days than any room can possibly afford.

We have these in stock in all widths, in the Baronial brown and forest green colors.

TRAIN WRECK

NARROWLY AVERTED.

Paterson, N. J., May 10.—West-bound train No. 5, on the Erie railroad, known as the Chicago Express, had a narrow escape from wreck tonight when the locomotive crashed into a pile of rocks on the tracks here, evidently placed there by would-be train wreckers. The engineer sighted the obstruction in time, however, to slow down so that only the locomotive pilot was smashed. No one was hurt.

Monday last the Erie board of directors in New York received a letter of black hand type which read:

"If you continue to stop trains for the accommodation of scabs we will cause an accident that will cause the Erie railroad to have damage suits for amounts running into millions."
